=

33.9%

GHG reduction target: -16.9 million ton CO₂eq.

- 8.3 Mt Energy **- 0.8 Mt Construction** **- 1.3 Mt IPPU** **- 1.0 Mt Transportation** **- 5.3 Mt Agriculture** **- 0.1 Mt Waste**

GHG reduction action

2010 base year:
25.8 million ton CO2 eq.

Projected increase by 2.76 times

Projected scenario by 2030
74.2 million ton CO2 eq.
GHG

Government Action Plan (2020-2024)-
target 12.3% or
9.2 million ton CO2 eq. GHG to be
reduced

GHG emission reduction
by 16.9 Mt or 22.7%

5.1.12. Reduce national greenhouse gas emission by 12.3 percent by implementing extensive and efficient green development policy including climate change mitigation and adaptation objective.
